

GET MORE FACEBOOK PAGE LIKES FOR FREE BY SENDING INVITES

By utilizing this method, you can increase your Facebook page likes by 5-10 people each week by simply spending 5 minutes scanning old posts on your page for people who have not liked your page and then invite them. Organic growth is the best kind of growth on social media. You can show this video to a front desk worker and make it part of a daily checklist. They're probably already scrolling Facebook in their downtime so why not pick up some extra page likes from it?

STEP 1 Find an old post on your Facebook page and see who has liked, commented or shared it.

STEP 2 After clicking to view who has engaged, click on the invite button for anyone who has it.

STEP 3 Repeat daily! You can go back to posts that are a few days old or even a few years old.
